Mr. Stephen E. Northcott  
Accurate Analytical Testing, LLC  
30105 Beverly  
Romulus, MI 48174

Laboratory No: 9996

Dear Mr. Northcott

SUBJECT: Initial Laboratory Certification

The information prepared and submitted to this office by your laboratory has been reviewed. Based on this information, the Department of Environmental Quality (DEQ) has certified your laboratory for compliance monitoring under the Safe Drinking Water Act, 1976 PA 399, as amended. Our initial certification for your laboratory by parameter is as follows:

**Lead and Copper**  
Full Certification

Copper and Lead (via U.S. EPA Method 200.5)

Our certification of Accurate Analytical Testing for the analysis of lead and copper in drinking water is contingent on your continued compliance with state and federal regulations. Additionally, your certification is contingent on the submission of acceptable proficiency test sample results from a state-approved supplier on a running 12-month basis.

A follow-up inspection will be conducted within the next 12 months to ensure that all findings cited during the October 24, 2017 inspection of your facility have been corrected and to perform a data audit. In addition, laboratory records will be reviewed to verify that all necessary documentation is being maintained. This audit will be scheduled in advance and will be conducted by this office.

Our initial certification of your facility will expire on November 27, 2018. The expiration date of your certification will be upgraded to reflect the three-year certification period (November 27, 2020) providing at the follow-up inspection the laboratory demonstrates all findings have been corrected and passes the data audit. This includes ongoing implementation of the corrective actions taken, adherence to the required procedures, and the proper maintenance of documentation.

Mr. Stephen E. Northcott  
Accurate Analytical Testing, LLC.
