DRINKING WATER METALS

Copper: EPA 200.5
Lead: EPA 200.5

By:

Ali Boren
Certification Officer
Date signed and effective June 8, 2020

As of June 11, 2020, this list supersedes all previous lists for this certificate number. Vermont Certification is based in part upon current New York certificate serial number 61588, April 1, 2020 – April 1, 2021. Laboratories are certified in Vermont based, in part, upon its Primary Accrediting Body(ies) drinking water accreditation(s). Also, loss of drinking water primary accreditation (in part or whole) constitutes loss of certification in Vermont for the same drinking water tests.

Robert Theys
Accurate Analytical Testing, LLC
30105 Beverly Road
Romulus, MI 48174

Dear Robert Theys,

Thank you for applying for drinking water testing certification with the State of Vermont. Please find your laboratory's Drinking Water Laboratory Certification listing and Vermont Certificate enclosed with this letter. Please **review** these documents for accuracy and inform us of any possible discrepancies. The listing will be valid until the date on the Analytical Methods attachments [unless your primary accrediting body changes your accreditation status].

The Laboratory shall send updated certificates from its primary accrediting body(ies) within 10 business days of receipt to the Vermont Department of Health.

The granting of certification status is directly related to successful proficiency performance, corrective action, fully implemented quality assurance plan, audits and receipt of fees. The Certification Officer will review these areas prior to granting of certification status. Certification status may change during the calendar year.

If you have any questions, please call or write to me directly.

Sincerely,

A handwritten signature in blue ink that reads "Ali Boren".

Ali Boren
Certification Officer
Vermont State Public Health Laboratory
