VIA E-MAIL

Mr. Stephen E. Northcott
Accurate Analytical Testing, LLC
30105 Beverly
Romulus, MI 48174

Laboratory No: 9996

Dear Mr. Northcott

SUBJECT: Laboratory Certification Extension

In accordance with Gov. Gretchen Whitmer and the Michigan Department of Health and Human Services' recommendations designed to help prevent the spread of Coronavirus Disease 2019 (COVID-19), we have postponed the original inspection date for your laboratory. The state is taking proactive steps to mitigate the spread of COVID-19 in Michigan. We appreciate your understanding and cooperation in reducing the risk coronavirus to Michigan residents. For current and up-to-date information regarding the Coronavirus visit Michigan.gov/Coronavirus or CDC.gov/Coronavirus.

The expiration date for the certification issued to Accurate Analytical Testing, LLC on December 19, 2018 has been extended to allow for the completion of the re-certification process. Our certification for the examination of drinking water is contingent on your continued compliance with state and federal regulations. Additionally, your certification is contingent on the submission of acceptable proficiency test sample results from a state-approved supplier on a running 12-month basis.

This administrative extension to your current certification expires on February 1, 2021.

The certification period will be extended to cover the next 3-year certification period when your laboratory has successfully completed the re-certification process.

If you have questions regarding this information, please contact me by phone at 517-335-9219 or by email at lundyg@michigan.gov.

Sincerely,

Gregg A. Lundy
Laboratory Certification Officer
